TSUBAKI NAKASHIMA CO., LTD.

TN GEORGIA, INC. Obtains Nadcap Certification for Non-Destructive Testing in Aerospace Manufacturing

— Supporting Expansion of Aerospace and Defense Bearing Ball Production —

Tsubaki Nakashima's U.S. subsidiary, TN GEORGIA, INC., has obtained Nadcap (National Aerospace and Defense Contractors Accreditation Program) certification for Non-Destructive Testing (NDT) at its Cumming plant in November 2025. This certification applies to the NDT processes required in the production of aerospace bearing balls.

Nadcap is an internationally recognized accreditation program for special processes and products in the global aerospace and defense industry, administered by the U.S.-based nonprofit organization Performance Review Institute (PRI).

Achieving Nadcap accreditation requires exceptionally stringent quality control and audit standards.

The Cumming plant had already obtained Nadcap accreditation for Fluorescent Penetrant Inspection and Eddy Current Testing in 2024.

With the addition of the Surface Temper Etch certification required for aerospace bearing balls, the plant is now able to expand its product offerings to support a wider range of safety-critical aerospace applications. This will contribute to minimizing supply chain risk for customers.

As announced in our Mid-Term Business Plan last year, the Aerospace and Defense segment has been identified as one of our key growth areas.

This new certificate represents an important step toward enhancing in-house manufacturing capabilities in the future and will further support the global expansion of production for Aerospace and Defense components.

Guided by our Purpose, "Help the world to move by the power of precision," Tsubaki Nakashima will continue to support our customers' success by delivering high-quality products and contributing to keeping the world in motion.

This certificate is granted and awarded by the authority of the Nadcap Management Council to:

TN GEORGIA, INC.

2200 Pendley Rd
Cumming, GA 30041
United States

This certificate demonstrates conformance and recognition of accreditation for specific services, as listed in www.eAuditNet.com on the Qualified Manufacturer's List (QML), to the revision in effect at the time of the audit for:

NonDestructive Testing

Certificate Number: 28902239834
Expiration Date: 28 February 2027
Accreditation Length: 12 Months

About Tsubaki Nakashima

Tsubaki Nakashima specializes in the manufacturing and sale of precision components for industrial applications. Utilizing materials such as ceramics, steels, and plastics, we produce more than 20,000 product types, including high-precision balls, rollers, large-scale blowers, and contract injection molding. For over 90 years, our expertise, experience, and global network serving the automotive, industrial, aerospace, and medical industries have built our reputation for excellence, innovation, and quality — while supporting people's everyday lives.

Guided by our purpose — *to help the world to move by the power of precision* — we are committed to building a truly sustainable future, recognizing our responsibility to those who work with us and to the world around us.

Tsubaki Nakashima (securities code: 6464) is listed under prime market of Tokyo Stock Exchange. Learn more at <https://www.tsubaki-nakashima.com/en/>
